INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of South-eastern Directories, present to subscribers and the general public, this, the 1959 edition of the Smithfield and Selma City Directory, which also includes rural routes emanating from the Smithfield and Selma post offices.

Confidence in the growth of Smithfield and Selma's industry, population and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Smithfield and Selma to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Smithfield and Selma Directory will fulfill its mission as a source of authentic information pertaining to the communities.

Five Major Departments

The five major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of Smithfield and Selma, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the communities. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In progressive communities like Smithfield and Selma, the necessity of having this kind of information up-to-date and always immediately available is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the

name, marital status, occupation and address of each adult resident of Smithfield and Selma and vicinity, and the name, official personnel, nature and address of each firm and corporation in the communities.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper, covering Smithfield followed by a similar section for Selma.

V. THE RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper, covering Smithfield followed by a similar section for Selma.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Smithfield and Selma and vicinity.

The Out-of-Town City Directory Library

Through the courtesy of the publishers of the Smithfield and Selma City Directory, a Directory Library is maintained in the offices of the Smithfield Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Oldest, largest and busiest of Johnston's ten towns, Smithfield is a county seat of 5,613 population. In 1890 it was only 545. Once it was a river town, and the Neuse still flows slowly along the west edge of its business section, but its commercial importance now is the potential it has as a source of industrial water. Smithfield's water facilities are adequate for an anticipated growth of 20 years.

Downtown Smithfield spreads east of the courthouse lawn, and is a mixture of retail stores, farm equipment places and tobacco warehouses. Often in early summer it is a tranquil place, but beginning in August it is a beehive. Tobacco is still the biggest thing in the life of the average Smithfield citizen. When the nine auction warehouses sell some 30,000,000 pounds, they turn loose \$12 to \$15 million, and a good part of it goes to Smithfield—either directly into the pockets of absentee farmers living in town, or indirectly via farm trade.

Tobacco is, however, an old story to Smithfield. In 1770 the legislature established a public "Inspection of Tobacco" in Johnston at the ferry on the lands of John Smith. Here tobacco was inspected, and put in stamped hogsheads. It was floated down to New Bern in flatboats. Consequently Smithfield is the oldest tobacco market in North Carolina, still in business, allowing, of course, for interims of inactivity.

The modern auction market opened in 1898 via a warehouse operated by Skinner and Barham.

The redrying houses, also operating seasonally, provide the largest single source of employment in the county, aside from agricultural pursuits.

The cotton market, though overshadowed, is one of the largest in the state, with three gins and facilities for storing 18,000 bales. There is a large livestock market.

But recent industrial additions, such as Burlington Mills, the now-expanding Jerold Company (sportswear for women and children), and Carolina Packers are broadening the base of the town's economy.

Conscious effort by the citizens to accomplish just such a broadening has recently been stepped up by a rejuvenated Chamber of Commerce and formation of the Smithfield Industries, Inc., to provide quarters (if needed) for interested industries. It was instrumental in locating the garment factory.

The town was fortunate to have one distinction. In all of its long career, and through every turn in business, it never suffered a bank failure. It is one of the financial centers of North Carolina, through the presence of main offices of the First-Citizens Bank & Trust Company.

The town was founded on land which John Smith, the first settler, donated. He had moved in from Virginia and obtained a license to operate a tavern at the site in 1765. Later he moved to Tennessee, where he died.

Smithfield was incorporated in 1775, and must have had some facilities and prestige during the Revolution. The General Assembly was to have convened in New Bern in April, 1779, but a smallpox epidemic forced them to meet elsewhere, and they chose Smithfield.

It was at this session that the representatives made the first attempt to halt the nomadic wandering which had the assembly meeting first in one place and then another. A resolution was introduced naming a commission to "view and fix upon some place in each of the counties of Johnston, Wake and Chatham for holding the General Assembly."

Nothing came of this, and the resolution may not even have passed, for the Senate Journal of that session is lost.

However, when a capital site finally was picked, Smithfield was in the running. We frequently hear the town lost by only one vote, but the statement is always prefixed by the warning that it is only a "tradition."

Also according to tradition, a Smithfield man cast the deciding vote against location of the Southern Railway, fearing that the smoke and noise would be injurious to the quiet of the village. It later obtained the Atlantic Coastline. It is situated on U. S. Highways 70 and 301, with three bus lines and four truck lines.

Beyond the commercial center lie the residential sections, mostly composed of comfortable but moderate homes.

They are built along old tree-lined streets, and even though close to town have an air of leisure and well-being. Smithfield, for all its concern over the replacement of farm labor and the need for new enterprises, is a town of quiet poise. And it has, over its 200 years, gradually equipped itself adequately.

It has a small but good and well-used library; a handsome, relatively new hospital; a county-wide country club nearby; a community center; a volunteer fire department; and a school system so thorough it is said to send 80 per cent of its graduates to college.

The civic life is well balanced by organizations—civic, fraternal, cultural, literary, dramatic, professional. It has a city library and also is headquarters for a nine-branch county library system with bookmobile. A Historical Society is busy compiling a county history. There are 15 churches and an 8-acre recreation center, operated by a summer-time city recreation department.

Smithfield's growth in size and responsibility has not robbed it of a social life which is as friendly and neighborly as that of the smallest rural community in the county.

Smithfield has a tax rate of \$1; \$8,500,000 valuation and \$450,000 debt.

SELMA

(Courtesy of Selma Chamber of Commerce)

Crossroads of Eastern Carolina is one of Selma's watchwords, because it is at the junction of the Southern and ACL, and on U. S. 301 near U. S. 70 crossing and one mile west of the new 95 interstate highway system. Six major truck lines serve Selma. Eastern, Capital and Piedmont airlines at Raleigh-Durham Airport are an hours drive from Selma. A private airport is maintained in Selma.

Selma has had a quiet but steady growth. The 1950 population was 2,639. Due to normal growth, and two areas coming into the city limits by petition and vote during 1957 and 1958, it is reliably estimated that the present population is 3,300. Only three miles apart and connected by highway 301—Selma and Smithfield are rapidly growing toward each other, and some day only a corporate limit sign will separate them.

Selma is the place to go if you want to see a mid-eastern North Carolina town at its best. The business area of the town is three blocks square, and contains an unusual assortment of stores and service establishments catering to the town and the farms in the area. The homes, some new, some old, are neat and along well kept streets. Buying income for the Selma trading area is \$15,300,000 annually.

Selma is fortunate in having well diversified industry. During 1957 the Selma-Smithfield Industrial Development Corp. was formed and as a result, in 1958, Shallcross Manufacturing Co., manufacturers of electronic components and switches, started operations in a new and completely modern building financed by progressive business and professional people from Selma and the area. Griggs Equipment Co. started the manufacture of school, church and theatre furniture in the 80,000 square foot building formerly occupied by Selma Mills. Selma Soy Bean Corp. was organized, financed by local capital, and started producing soy bean oil and meal. Kingan Division of Hygrade Food Products, opened a station for buying cattle and hogs; Gurley Milling Co. manufacturers of flour, corn meal and various feeds for a number of years, also added facilities for storing 100,000 bushels of grain.

Other well known industries here are: Eastern Manufacturing Co., manufacturers of cotton knitting yarns; Perry Lumber Co., processors of a wide variety of pine lumber; Pepsi-Cola-Worley Beverage Co., bottlers of Pepsi-Cola and a wide variety of other soft drinks; Virginia-Carolina Chemicals Co., makers of fertilizers and other agricultural chemicals; and Floyd C. Price & Sons, one of the largest farm supply houses in this section. American Telephone and Telegraph Co. maintains a repeater station here for Telephone and Television com-

munications. The area is served by the Branch Banking and Trust Co., one of the state's largest banking and trust organizations, with resources of \$98,849,648.49 as of March 31, 1959. The Johnstonian-Sun Publishing Co. moved into a new and completely modern building after more than 40 years in the original location.

Two of the best schools in the county are located in Selma and the Negro school, Richard B. Harrison, is the only Negro school in the county accredited by the Southern Association.

Selma was recently awarded a plaque by station WNCT, of Greenville, for industrial progress in 1958, when more than 300 new people were employed with an annual increase in payrolls of over \$1,000,000.

City government is progressive and is administered by a Mayor, Council, City Manager system, has a well-equipped fire department and efficient police protection with two-way radio. The tax rate is \$1.15 with \$3,312,498 valuation and a bonded indebtedness of \$329,000 which includes \$125,000 of recently issued water and sewer bonds for improvements with no increase in taxes.

One of the most beautiful Memorial Gardens to be found was opened in 1958. The grounds are under perpetual care through the Cemetery Department of city government. There are four thousand lots in the Gardens.

Due to mechanization and technological changes in farming and the year to year graduates from school, the area has an intelligent, able, hard-working and loyal supply for other industry. Through the financing or guidance of the Selma-Smithfield Industrial Development Corp., the able assistance of the State Department of Conservation and Development, progressive city government and the whole-hearted support of local business and professional people, continued progress is being made to balance agriculture with industry.

Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

Out of Sight • Out of Mind ★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight.
Insist on being well represented in its pages.

Please! Do Not Lend Your **CITY DIRECTORY**

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Our Service Cannot Be Excelled

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition

of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check operators.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition
of the City Directory?

You need it at your elbow at all times, to protect your company from
forgers and bad-check artists. A few questions, checked against City Direc-
tory information, will trip them at once. Intelligent use of the City Direc-
tory for this purpose has saved thousands of dollars and helped make some
clerk "too sharp" for bad-check "operators."

CASHIERS!

TELLERS!

CLERKS!

Do your employers furnish you with the latest edition
of the City Directory?

You need it at your elbow at all times, to protect your company from
forgers and bad-check artists. A few questions, checked against City Direc-
tory information, will trip them at once. Intelligent use of the City Direc-
tory for this purpose has saved thousands of dollars and helped make some
cities "too sharp" for bad-check "operators."

CASHIERS!

TELLERS!

CLERKS!

Do your employers furnish you with the latest edition
of the City Directory?

You need it at your elbow at all times to protect your company from
forgers and bad-check artists. A few questions checked against City Direc-
tory information, will trip the bad ones. Intelligent use of the City Direc-
tory for this purpose has saved thousands of dollars and helped make some
cities "too sharp" for bad-check "operators."

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition
of the City Directory?

You need it at your elbow at all times, to protect your company from
forgers and bad-check artists. A few questions, checked against City Direc-
tory information, will trip them at once. Intelligent use of the City Direc-
tory for this purpose has saved thousands of dollars and helped make some
cities "too sharp" for bad-check "operators."

CASHIERS TELLERS CLERKS

Do your employers furnish you with the latest edition
of the City Directory?

You need it at your elbow at all times, to protect your company from
forgers and bad-check artists. A few questions, checked against City Direc-
tory information, will trip them at once. Intelligent use of the City Direc-
tory for this purpose has saved thousands of dollars and helped make some
cities "too sharp" for bad-check "operators."

WHY A YELLOW PAGE SECTION?

***It is customary to include a Yellow Page Section in the City Directory because:**

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

✱

The Yellow Page Section is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

HILL'S SMITHFIELD AND SELMA

Directory of Householders, Occupants of Office
Buildings and Other Business Places, Includ-
ing a Complete Street and Avenue Guide

1959

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parentheses denote old numbers.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

CASHIERS!

TELLERS!

CLERKS!

Do your employers furnish you with the latest edition
of the City Directory?
You need it at your elbow at all times, to protect your company from
forgery and bad-check artists. A few questions, checked against City Direc-
tory information, will trip them at once. Intelligent use of the City Direc-
tory for this purpose has saved thousands of dollars and helped make some
cities "too sharp" for bad-check "operators."

**CITY DIRECTORY
ADVERTISING
is *National* ADVERTISING**

★ Each edition of your City Directory is widely distributed to free - reference City Directory Libraries located at the Chambers of Commerce of Hundreds of other cities.

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

Out of Sight - Out of Mind
★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.
INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

 Do your employers furnish you with the latest edition
 of the City Directory?
 You need it at your elbow at all times, to protect your company from
 forgers and bad-check artists. A few questions, checked against City Direc-
 tory information, will trip them at once. Intelligent use of the City Direc-
 tory for this purpose has saved thousands of dollars and helped make some
 cities "too sharp" for bad-check "operators."

WHY A YELLOW PAGE SECTION?

***It is customary to include
a Yellow Page Section in
the City Directory because:**

**It gives business firms the
opportunity to elaborate upon
a description of their products
and services impossible in
the limited space of regular
Alphabetical and Classified
listings.**

**The Yellow Page Section is a necessary supplement
to the regular listings; it is good City Directory in-
formation . . . EXTENDED.**

Use Our Library of

OUT-OF-TOWN CITY DIRECTORIES

A complete library of out - of - town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
